Dr. Henry Brill  
Narcotic Control Commission  
1855 Broadway  
New York, New York

Dear Henry,

Enclosed is another chapter in the saga of cyclazocine. This study was done in Tennessee with some assistance from us. I think it will interest you.

I want to thank you once again for sending Dr. Miras to me, for it was a most interesting visit and I hope that something can be worked out in collaboration with him.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
