Dr. Werner P. Koella
Senior Scientist
The Worcester Foundation for
Experimental Biology
Shrewsbury, Massachusetts 01545

Dear Werner,

Thank you very much for your invitation to present some additional data in Study Group III. I believe that the program that you have set up for the special workshop is sufficiently extensive that it may not be adequately covered in the time allocated. Perhaps the time which may be available may better be used to extend the ~~workshop~~ physiology?

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
