Dear Fritz:

Again, I want to compliment you on your recent article concerning biological therapies (*Comp. Psychiat. 6: 283-289*). Within the last two months, Dr. Itil and I completed a draft of a summary of the "Organic Treatment of Schizophrenia" for a forthcoming textbook. The views we expressed reflect, I believe, your latest statement. I am sending you a copy, and we would be grateful for your comments.

I would be pleased to have a reprint, when available.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
