

October 28, 1965

Mr. Jerome Stevens
618 North 104th Street
Wauwatosa, Wisconsin

Dear Mr. Stevens:

I am pleased to enclose a few copies of an interim report on the study in which you participated during your summer fellowship last year. The critique which you will note on page fifteen led to our repeating much of the study during the past few months. Dr. Don, who carried out these studies, was called back to South Africa and so the analyses will be completed by some of my friends in New York.

I trust this note finds you well.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
