

June 12, 1963

Dr. Mary Morrow
3016 Dogwood Drive
Louisville, Kentucky

Dear Dr. Morrow:

Thank you very much for your letter of June 9th. We would be pleased to consider your application within the career residency program. However, it is necessary that approval for three years credit from the American Board of Psychiatry and Neurology is prerequisite to such appointment. As soon as you have received such notification, please send me a copy and submit the Missouri Application Form which you took with you when you visited us.

It will not be necessary to write the superintendent of the hospital, as I have discussed this with him and it will be possible to have all communications go through this office.

Sincerely yours,

Max Fink, M. D.
Director
