Garden City, New York

Dear Abe:

Thank you very much for the bulletins. The presentation is excellent, and carries the hallmark of your own inimitable style.

There is an active program in post graduate education in St. Louis which is under the sponsorship of Dr. Ed Auer, who is the Chairman of the Department of Psychiatry of St. Louis University. I have taken the liberty of sending your outline to him for his information.

The past years have been challenging, and it has been only in the last few months that I have found the time to get back to the laboratory. We have many units now in operation and with some good fortune, the productivity of this center will match the visions which I had for Hillside.

Martha and the children are well, and seem quite acclimated to the Midwest. Martha has completed her first semester toward her masters in education, and she has accepted the challenge with a good deal of pleasure.

My best regards to all our friends.

Sincerely yours,

Max Fink, M.D.
