

January 7, 1969

Dr. William Guy
Biometric Laboratory
Washington, D.C.

Dear Bill,

Enclosed is a summary of the studies previously listed with the Biometric Laboratory from this unit, and their present status.

I have recently had two additional members join my staff and find that we have only one complete manual for ECDEU assessment (as revised July 1968). If other copies are available, I would appreciate two additional. If not, I will have the copy xeroxed.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
