April 19, 1973

Dear

I am pleased to tell you that the reports of the conference on The Psychobiology of ECT are in the hands of the publisher, V. H. Winston & Sons, who plan to have the volume appear in September. The volume will be published at a reasonable price (\$12-\$14) and will be distributed and advertised by John Wiley & Sons.

We would like to have an up-to-date title and address list for the participants. If the address on this letter is correct, please initial the card and return, after adding your proper academic titles. If there are any changes, please indicate.

We will send galley proofs with the usual requests for prompt return.

If you plan to be away in June or July, and know a temporary forwarding address, I would appreciate receiving it.

We are grateful for your participation, and hope the volume will meet your expectations.

Sincerely yours,

Max Fink, M.D.
James McGaugh, Ph.D.
Seymour Kety, M.D.
