Dr. William Borger
McNeil Laboratories, Inc.
Camp Hill Road
Fort Washington, Pa.

Dear Dr. Borger:

I am writing at the suggestion of Dr. Horst Flegel, who has indicated a desire to join the staff of the Institute as a research associate.

I would be grateful for your comments regarding Dr. Flegel's ability to communicate with psychiatric patients in English, an estimate of his ability to undertake independent research, and his ability to get along with his co-workers.

He has indicated that he would like to learn more about the evaluation of behavioral change, especially our methods of rating patients. As you know, the Missouri Institute of Psychiatry is a clinical research center established by Dr. Ulett. I am taking the liberty of enclosing a copy of our first annual report, as this will give you a picture of our present programs.

I would be grateful for your candid comments as to whether Dr. Flegel would be able to participate in a mutually co-operative way.

Sincerely yours,

Max Fink, M.D.
Director
