Heinz E. Lehmann, M.D.
Clinical Director
Verdun Protestant Hospital
6875 LaSalle Blvd.
Verdun, Quebec

Dear Heinz:

I was delighted to read of your symposia on adverse drug reactions, for I have just written a letter to Leo Hollister to ask his comments regarding a problem which we have recently observed here. I am taking the liberty of sending you a copy for your opinion as well. Is this phenomena of "water intoxication" or "psychogenic diabetes insipidus" described in your proceedings as an adverse reaction to psychotropic drugs? The syndrome we have observed appears related to the phenomena of drug-induced parkinsonism.

I hope that the Quebec Psychopharmacological Research Association will continue its good work and look forward to the symposia as they are produced.

My best personal regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
