Dr. Melvin Lax
Bell Telephone Laboratories
Murray Hill, New Jersey

Dear Mel:

Thank you for your letter and your comments which I believe are cogent and correct.

I plan to be in New York the first part of December and have an opportunity to visit the New Jersey Neuro-Psychiatric Institute on the morning of December 5 (Thursday). That institution is in Princeton and if my geography is correct, it should take me no more than an hour to reach you from there.

Would it be possible for me to visit you late in the afternoon (4:00 p.m.) on that day, spend some time with you, and join you for dinner? If that is not a good time, I plan to stay over the weekend and perhaps we can arrange to meet on Sunday or Monday?

My best regards to Judy.

Sincerely yours,

Max Fink, M. D.
Director
