Washington, D.C. 20005

Dear Mr. Erlbaum,

Enclosed are a number of items: the corrected versions of the papers by Fink, D'Elia, and Volavka; two new reports (numbers 21 and 22) by Kety and McGaugh; edited pages 1 and 2 of the paper by Ottosson (#14); and a discussion by Ottosson to follow paper number 1 (Fink).

I have made the corrections requested by the editor in red. Note the comments with regard to 'leucotomy', 'grand mal'; the desire to use italics in my report; and a few other suggestions.

At present, there are two reports lacking: an overall summary (paper 20) and an introduction. I shall do what I can to get these to you shortly.

Incidentally, I found your editor thorough.

Many thanks.

Sincerely yours,

Max Fink

Max Fink, M.D.
