

December 19, 1966

Dr. Werner P. Koella
Chairman, Study Group III
The Worcester Foundation for Experimental
Biology
Shrewsbury, Massachusetts 01545

Dear Werner,

The manuscript of our report on cyclazocine is now completed, but I am awaiting the prints for a number of figures. This will require an additional two weeks. If there will be any unusual delay in the figures, I will send the text on to you sooner and indicate that the figures will follow shortly.

I enjoyed the meetings very much and wish to congratulate you on the program.

My best regards for the New Year.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
