Dear Dr. Stephan,

Thank you for the helpful translation of my report to the Austrian funding agency. It was most helpful and I have sent it on; hopefully it will serve to encourage their research interests.

My regards.

Sincerely yours,

Max Fink, M.D.

Dear Ms. Piroska,

It was a pleasure to review the application of Dr. Greta Koinig of the University of Vienna. My recommendations are attached, translated for your use. I hope these are helpful.

Sincerely yours,

Max Fink, M.D.

Dear Werner,

I am in the embarrassing position of being asked to review a grant application by the Austrian Medical Science Foundation and not able to translate my report into intelligible German. The application and letter are in German (which apparently I can read easily enough), but I cannot get the die's and der's correct --

Hence this request. Would you ask your secretary or translator to put the attached report into good, technical German and return it to me for retyping? I (and the Austrians) will be most grateful.

We are looking forward to your visit in August. Except for re-doing our kitchen and having a mess about the house, we should be home and unencumbered all month.

My best regards and my thanks.

Sincerely yours,

Max Fink, M.D.
