

October 12, 1966

Dr. Turan M. Itil  
Missouri Institute of Psychiatry  
5400 Arsenal Street  
St. Louis, Missouri 63139

Dear Turan,

I believe it would be appropriate for us to present the fluphenazine decanoate material at the ASMP meeting.

If agreeable to you, I will be very glad to write an abstract, assuming that Ali will present it, or if he is unavailable, that either you or I will.

Perhaps you would consider a concurrent presentation of our cycloserine symptom provocation studies, for by that time Jovan will have had an opportunity to complete the six month follow-up.

It was nice being with you in Denver and I look forward to seeing you in Washington.

Best regards to the family.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry

MF:kp

P.S. The best reservation for Washington on Monday, October 24, is the air shuttle. Ask for an open shuttle ticket and we can arrange to go on the same flight.
