Mr. Gary H. Boyer  
Chief Pharmacist  
Center for Studies of Narcotic  
and Drug Abuse  
5600 Fishers Lane  
Rockville, Maryland 20852

Dear Mr. Boyer:

Enclosed is a copy of our ongoing protocol for the clinical evaluation of cyclazocine in the treatment of opiate dependence. In part, this protocol amplifies the contract, HSM-42-72-207 between NIMH and Dr. Alfred Freedman of the New York Medical College.

You will note that we have an ongoing maintenance population; and a new group being inducted to high dose cyclazocine (to 20 mg/day).

Thank you for your help.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
