

May 2, 1991

Mrs. Robin Nicol
MECTA Corporation
7015 SW McEwan Road
Lake Oswego, OR 97035

Dear Robin,

It was a pleasure to work with you, Gorham, and your associates at the CME course in New York. Despite the unpleasantness of the intrusions, the students seemed to get much from the course. John Schwartz was sufficiently pleased to call to say that he would like to undertake another course this Fall, and perhaps establish an 'Advanced Course' as well.

I would like to return the modified MECTA SR-1 which you kindly sent us last year. It is in excellent shape and could well be returned to your inventory. Would you send me the appropriate carton and packing materials so that I can return it in good form?

Again, send the material to me by UPS or other freight handler to:

36 Spring Hollow Road
St. James, New York 11780

My regards to all.

Sincerely yours,

Max Fink, M.D.
Executive Director
