Dear Karl,

Jonathan called me yesterday to tell me that the project has been approved by the council and we should be in business by next summer.

The Ampex SP-300 which you have ordered is the same as the one I have received. I took the liberty of calling Curtis Engel and checking and incidentally told them to recommend the same tapes to you when you decide to buy some.

I look forward to working with you.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
