Dr. Israel Kesselbrenner
Kirby Manhattan Psychiatric Hospital
Ward's Island
New York, New York 10035

Dear Is,

Attached are the curriculum vitae and applications for appointment of Drs. Michael A. Taylor and Robert H. Levine.

Both these men completed their residencies in July 1969 and now are completing two years of military service. They will be in New York and ready to work on July 1. They will be appointed to the position of Instructor in the Department of Psychiatry, with the understanding that as soon as they have their boards they will be promoted to the position of Assistant Professor. We anticipate that they will both take their board examinations this winter.

They are capable teachers, clinicians, and researchers and I recommend them highly for positions at Kirby Manhattan Psychiatric Hospital.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
