

September 20, 1973

Dear Turan,

I received copies of your letters of invitation to Professor Polvan and to Dr. Herrmann, inviting them to participate in the ACNP session on transcultural aspects-- studies of new drugs outside the U.S.

Would you care to invite Henk van Riezen of Organon to present their study program? I have invited him to attend the ACNP as my guest and perhaps he could describe the GE-94 or the OI-63 studies .

My best regards.

Sincerely yours,

Max Fink, M.D.
