Paul H. Hoch, M. D., President
American College of
Neuropsychopharmacology
Psychiatric Institute
722 West 168th Street
New York 32, New York

Dear Paul:

It is with pleasure that I recommend Dr. Abraham A. Sugerman of the New Jersey Neuropsychiatric Institute for membership in the American College of Neuropsychopharmacology. I have known Dr. Sugerman for the past year and in each of our associations, and in reading his early reports, I have found him to be a sincere psychopharmacologist.

An Irishman, he exemplifies the best of the personality traits of the cultural group. He is likeable, friendly and has shown a dedication to his work which is exemplary. Following his medical degrees from Dublin University in 1952, he attended the special program at the Downstate Medical Center in New York and received the D. Med. Sci. degree in 1962. He holds the D.P.M. and M.R.C.P. in 1958.

At the present time, he is the Chief of the Section of Experimental Psychiatry at the New Jersey Bureau of Research in Neurology and Psychiatry.

I would recommend Dr. Sugerman heartily for membership in the A.C.N.P.

Sincerely yours,

Max Fink, M. D.
Director
