

73SB-586

March 27th, 1973

TO: Stanley F. Yolles, M.D.  
FROM: M. Fink, M.D.  
SUBJECT: Methadone Contract

Regarding the reply which is called for:

1. No response.

2. All the funds of the DDTC are used for treatment and rehabilitation. Any research activity is financed by University funds.

3. No response.

4. (a) For 1972-73, we have utilized the beds of DDTC at 80% capacity to December; 100% January-February; and now have 105-110% capacity. Our projection for April-June is 120% capacity. [Capacity = 21 beds].

For 1973-74 we are projecting 24-30 beds - the excess over capacity being housed in other wards.

(b) Staff visits: Patients visiting staff as outpatients average 35-50/week at this time, increasing to 80-100 by June. For 1973-74, we anticipate 100-150 OPD visits/week.

(c) Contract visits: none to date, and none projected.
