Dear Bill,

Enclosed is a protocol for a study of Repoise - syrup which has been submitted to the appropriate committees for approval. I would expect that this will be obtained within a month. By that time, I will have had the chance to discuss the protocol with my full staff and the study may begin in early November.

If this protocol is satisfactory, and as soon as you have submitted it to the FDA, please call me and we can discuss the supplies that will be necessary.

Thank you for the opportunity to consider this study.
My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
