Dr. Graham Chen  
Parke, Davis & Company  
2800 Plymouth Road  
Ann Arbor, Michigan

Dear Dr. Chen:

Some time ago you were kind enough to send us sernyl for investigational use in our animal studies. This has now been consumed, and we would like to continue our studies.

I called Dr. Sanseigne on Friday, and he suggested that I write directly to you. For the continuation of our present studies on the effects of sernyl on the electroencephalogram, I would be grateful if you could make available approximately one gram, either in 10cc vials, as provided before, or in powder form. Our previous batch was labeled "Sernyl, 1%, Batch No. X 7339."

Thank you for your cooperation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
