

June 1, 1970

Dr. Chris Zarafonitis, M.D.  
Univ. Michigan Medical Center  
Department of Postgraduate Medicine  
Ann Arbor, Michigan 48104

Dear Chris,

Thank you very much for your kind invitation to participate in the International Conference on Drug Abuse in November, 1970 at Ann Arbor. I am pleased to accept and look forward to the symposium.

From the format of the suggested program, I believe you would wish a discussion of the role of the narcotic antagonists in the treatment of opiate dependence, particularly in the treatment of juvenile abusers of opiates. As a suggested title, I would offer *Treatment of Opiate Dependence by Narcotic Antagonists* or the more general title, *Opiate Antagonists and Heroin Dependence*.

In this presentation, the final report will be co-authored by my associates, Drs. Alfred M. Freedman, Richard Resnick and Arthur M. Zaks, all of the Department of Psychiatry of this college.

Again, my thanks for your kind invitation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
