

73SB-561SB

March 5th, 1973

TO: Stanley F. Yolles, M.D.
FROM: Max Fink, M.D.
SUBJECT: Morton G. Miller, M.D.

I am pleased to write in support of the recommendation for tenure for Dr. Morton Miller.

Prior to joining this faculty, I had occasion to work with Dr. Miller when he was an administrative leader at the National Institute of Mental Health. In that role I found him unusually intelligent, innovative, and sensitive to social issues of community mental health.

Since joining the faculty last summer, I have worked with him in the training program and on a number of committees. On each occasion I have been impressed by his industry, enthusiasm, goodwill, and his ability to bring to both the teaching and administrative aspects of our work, a broad perspective and a balanced sensitivity. He accepted the challenge of the teaching program with enthusiasm.

I am pleased to recommend him for consideration for tenure under the rules of the State University of New York, as I am convinced that he is seriously committed to teaching as a career, and to this university.
