St. Louis, Missouri 63130

Dear Don,

I am pleased to confirm that I have appointed Miss Gail Gleasner as programmer in the new study program in New York. Miss Gleasner will be available to assist in the translation of the 1710 programs for the IBM 1800 for the demonstration at the APA in May. I would be grateful if you would make the necessary arrangements for her to work at Washington University during the next few months. I believe that she will be available for a number of weeks at a time.

As we discussed, the need is for the operating program to be translated so that we could put on a demonstration using some of our taped records. To the extent possible, it may be helpful for her to observe the operations of the EEG laboratory at the Institute and I would be grateful if you would make the necessary arrangements with Turan during her visit.

As soon as I have a date available for her to come to St. Louis, either Kathy or I will call you.

My best regards for the New Year.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
