Dr. Arnold J. Mandell
Department of Psychiatry and
Human Behavior
School of Medicine
University of California, Irvine
Irvine, California

Dear Arnold,

Thank you for your letter of February 21, indicating acceptance of two abstracts for the Society of Biological Psychiatry. I am delighted that two of my young associates will be able to present their unusual work on "Effects of Maternal Schizophrenia on Sex of Offspring."

I am writing, however, to ask if it is possible to withdraw the paper "Cerebral Reactivity Model in Schizophrenia - A Re-appraisal". Some of the work which I had wished to include has met unexpected difficulties in the analysis and neither Dr. Itil nor I think that we would have sufficient material available by the end of May to justify the presentation.

I regret any inconvenience that this may cause you. Thank you for your indulgence.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
