

July 19, 1963

Dr. Fritz Freyhan
Clinical Neuropharmacology Research Center
William A. White Building
St. Elizabeth Hospital
Washington 20, D. C.

Dear Fritz:

I should like to make some preparations for the 1964 meeting of C.I.N.P., including the convocation of a special meeting on EEG and psychopharmacology either prior to or immediately after C.I.N.P. Would you please tell me the dates of the meeting and the principal hotel.

If there is a provisional program available, I should be grateful for an opportunity to review this so as to avoid duplication. In Munich, I had discussed such a convocation with Dr. Bradley and found him most cooperative in helping me organize this meeting.

My best regards.

Sincerely yours,

Max Fink, M. D.
Director
