Dr. Conan Kornetsky  
Department of Pharmacology  
and Therapeutics  
Boston University  
School of Medicine  
84 East Concord Street  
Boston 18, Massachusetts

Dear Conan:

During the past few weeks, we have reviewed Dr. Tecce's commendations and found them excellent. Indeed, we invited him to come and visit us in order to work out the details of an appointment. He called earlier this week to tell me that he has decided to take a fellowship with you for additional training. Train him well, and we would indeed be interested in seeing him when he has learned what you can teach him.

In the meantime, if you think of another of your students who may be able to participate in our programs, I shall be grateful for your recommendations.

Many thanks.

Sincerely yours,

Max Fink, M.D.  
Director
