

P.P.

Dr. Horst

Flegel

February 14, 1964

Dr. F. Hornung
3120 State Street
East St. Louis, Illinois

Dear Dr. Hornung:

I have received a letter of inquiry from Dr. Horst Flegel of Dusseldorf. Thank you very much for referring him to us. A carbon copy of my letter to him is enclosed for your information. As can be seen, it is with some regret that I must indicate that for a clinical position, the satisfactory completion of the ECFMG is required. However, I would be delighted to have him work within our laboratories and if he is interested in such an opportunity, I think it would give him the chance to visit the States and to learn something about our programs.

It would be helpful if you would send me a letter of recommendation regarding your acquaintance with Dr. Flegel and any information that you may be willing to share with us regarding his research interests, his academic experience, and his ability to get along with other scientists.

Thank you very much for your recommendation.

Sincerely yours,

Max Fink, M. D.
Director
