30 East 76 Street
New York City 10021

Dear Lothar,

It was a pleasure working with you once again in explaining the progress in convulsive therapy. I was pleased by the presentations and by the audience response, but was disappointed that the time was so limited. Nevertheless, I believe the message was clear, and the discussion indicated that the process of exploration by the Task Force and the interaction with the community was successful. Thank you for your contribution.

I also want to take this opportunity to thank you for the splendid copy of your first edition. It is a welcome addition to my library of works on convulsive therapy, and I will treasure it.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
