Gentlemen:

I am interested in recommending the volume, Drugs and the Brain, edited by P. Black, 1969 (LC 68-31642), for use in a seminar, "Brain and Behavior," at the Health Sciences Center.

Has Dr. Black issued a later edition? If so, we would appreciate a trial copy.

If not, please send us a copy of the 1969 edition for faculty use and bill me directly.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
