Dr. Wolfram Keup
EPRA
681 Clarkson Avenue
New York, N.Y.

Dear Dr. Keup,

It will be a pleasure, to have the abstract of my presentation to the November meeting of EPRA, included in the report of the proceedings, with the literature citations.

I am taking the liberty of enclosing an announcement of the forthcoming meeting of the American Psychopathological Association, in New York on February 13-14. Since the subject is one of interest to members of the EPRA, perhaps it may be useful for us to circulate copies of the program to members; or, at least, announce the meeting to those that may be interested. If such circulation is possible, I will make copies of the program available.

I look forward to participating in the activities of EPRA, and thank you for the invitation.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
