Dear Dr. Medd:

Thank you for the monograph on EEG and the reprint by Itil. I am sure these will be of interest to the university chairman who received the mailing.

I know Dr. Itil's work very well, as we were co-workers during my years in St. Louis. Recently, we collaborated in an exhibit on combined drugs in schizophrenia at the APA, and this exposure was most interesting. With your interest in EEG, perhaps you would consider an exhibit of the methods of quantitative electroencephalography as another way of getting the message to the psychiatric profession.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
