Dear Bob,

The program of research in convulsive therapy is now in progress in Gracie Square Hospital. I have two resident physicians working with me and a fine experimental psychologist.

I would like an opportunity to have you meet with my staff and to discuss their programs. Do you expect to be in New York within the next two months? If not, would you like to come on a visit and we will defray the necessary expenses.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
