Gerald L. Kharman, M.D.,
Massachusetts General Hospital,
Boston, Mass. 02114.

Dear Gerry,

Following our discussion in New Orleans, I reached Jon two days after he had sent out the list of invitations for the Membership Committee. He was therefore unable to make the corrections that you suggested.

I think it would be appropriate for you to frame a series of recommendations regarding an increase in membership in the APPA, and the constitutional changes that would be necessary to accomplish this mission. These should be presented at the next meeting of Council, and the group's opinion determined. I believe you will get a favorable response.

As for the Arrangements Committee, Jon suggested Jim Barrett, and you suggested C. Pierce. I think that Jon should invite either or both to work with you.

Thank you for your kind thoughts. Much of the motivation for expansion of participation by the members in the APPA came from our discussions and your letters. I am, as always, grateful for your advice.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
