Prof. Henri Gastaut
Hopital de la Timone
Bd Jean-Moulin
13- Marseille, France

Dear Prof. Gastaut,

In response to your letter regarding supplies of THC and cannabis for your research programs, I called our National Institute of Mental Health center for distribution of the supplies, and introduced your request. My letter to Dr. Monique Broude, the scientist responsible for the distribution of supplies, will serve to begin the orderly process of making the materials you request available. She will write to you shortly to indicate the type and quality of the material on hand, and ask for some additional information that her Committee may request.

The usual processing time of requests has been 2 months, and should you fail to obtain some assurances within that time, please write to me again.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
