Dr. Roy R. Grinker, Sr.
Institute for Psychosomatic and Psychiatric Research
29th Street and Ellis Avenue
Chicago, Illinois 60616

Dear Dr. Grinker:

My associates and I are pleased to submit the enclosed report "Prolonged Adverse Reactions to LSD in Psychotic Subjects" for your consideration for the *Archives*. The recent interest in the complications of LSD and the repeated warnings issued in the *Archives* during the past few years stimulated this review of our experiences obtained in the course of the use of LSD as a therapeutic agent in the treatment of long-term psychotics.

Thank you for your consideration.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
