

*Dictionary program*

December 3, 1963

Mr. Hugh Fallon  
IBM Advanced Systems  
Development Division  
Yorktown Heights, New York

Dear Mr. Fallon:

I am writing at the suggestion of Dr. Joseph Jaffe. When I recently inquired about the abstracting program which he was using to develop a dictionary of a subject's speech, he indicated that the program was written in your division.

I have a large collection of psychiatric citations, for which I would like to develop a dictionary. There are two IBM computer facilities available to me, a 7072 at Washington University and a 1710-1620 at this institution.

If your program is written in fortran, I would appreciate a listing and description, if such is available.

If your program is not written in fortran, can you advise me as to the availability for either of the computers mentioned of an abstracting or dictionary program?

Thank you for your cooperation.

Sincerely yours,

Max Fink, M. D.  
Director
