Dear Ellen:

The orders of the Missouri Institute of Psychiatry are now complete except for the following:

We are missing 3 boxes of Durable Disc Electrodes E-1A and 3 boxes of Subdermal Electrodes E-2.

The claim for the repair to the damaged side plate of the electroencephalograph has been filed.

I have authorized the payment of all bills due you and would appreciate the completion of the electrode order.

Many thanks.

Sincerely yours,

Max Fink, M. D.
Director
