

December 8, 1964

Miss Susan E. Higgins,
Editorial Assistant
c/o Professor P. B. Bradley
The Medical School
Birmingham, 15, England

Dear Miss Higgins:

Your letter of December 3rd crossed a package of reports submitted from St. Louis to Dr. Dieter Bente. In that package we submitted the communications from Dr. Gershon, Dr. Ulett, and Dr. Itil. Some weeks earlier, I had sent on to Dr. Bente a copy of my report and the summary of the discussion of **Section 2**.

Dr. Ulett's discussion on Section 2, the second day, was a summary of a report that has already appeared in press and I do not believe that he wished to have the material published anew.

While I can send you corrected copies of each of these reports, I would prefer to take the liberty of sending a copy of this letter to Dr. Bente with a request that he either send our package on to you, or indicate to me that he has not received the material.

I will, however, send you copies of my presentation and the report of Section 2, as these were not sent to Dr. Bente a few days ago and they very well have been lost in the mail.

Sincerely yours,

Max Fink, M.D.
Director
