Dr. Arthur J. Prange, Jr.  
Department of Psychiatry  
University of North Carolina  
School of Medicine  
Chapel Hill, North Carolina

Dear Dr. Prange:

Thank you very much for your paper "Enhancement of Imipramine Antidepressant Activity by Thyroid Hormone." I have read this with interest and can find little that I can criticize. The data is impressive.

It may be of some help, and personal interest, to read copies of some of your other reports, notably Nos. 55, and 64. If these are available, I would appreciate the opportunity to read them before the meeting.

I look forward to seeing you in Boston.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
