Dr. Nathan S. Kline  
Rockland State Hospital  
Orangeburg, New York 10962

Dear Nate,

If the program at the ACNP in February allows, I would like to present a report of our EEG studies in normal volunteers in the committee of which you and Dr. Evans are co-chairmen.

Two years ago the data with major psychoactive drugs was presented. Since that time I have expanded the method to assay new psychoactive drugs and I now have some unusually fine data.

If an opportunity is made available the title should be "EEG Profile Analysis of Psychoactive Drugs in Normal Volunteers". The authors are Max Fink, M.D. and D. M. Shapiro, D.Sc.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
