

DEPARTMENT OF EXPERIMENTAL PSYCHIATRY

June 30, 1962

Dr. Lewis L. Robbins, Medical Director
Hillside Hospital
Glen Oaks, L.I., N.Y.

Dear Dr. Robbins:

It is with fondness for my stimulating and exciting years at Hillside that I submit this letter of resignation from the staff of Hillside Hospital effective on or about December 31, 1962. I am sure you will be pleased to know that the programs here have led to the invitation to establish a research and training program in a new center, the Missouri Institute of Psychiatry at St. Louis; as well as my appointment as Research Professor of Psychiatry at the Washington University School of Medicine.

During the remaining months of this year, I shall complete as much of my program as possible here and for this reason have asked to continue as project director of studies under U.S.P.H.S. grant MY-2715. As soon as these studies permit I shall assume my new duties in St. Louis on a full time basis.

I look back at these years at Hillside with pleasure, for I have learned much and have found enthusiastic and dedicated co-workers. I am grateful to the confidence expressed in my initial appointment by Dr. Israel Strauss, and to the support of the Board of Directors during these years.

Cordially yours,

MF:ED

Max Fink, M.D.
