Dr. Dieter Bente  
Universitäts-Nervenlinik  
Schwabachanlage 10  
852 Erlangen, am  
West Germany

Dear Dieter:

It is with great pleasure that I accept your kind invitation to participate in the Collegium Internationale Neuropsychopharmacologicum in September. I should be pleased to describe the reaction of neuroleptic and antidepressive drugs from the standpoint of clinical EEG.

During the past week, the galley proofs of the "Bibliography of EEG and Human Psychopharmacology", Supplement #23 of the EEG Journal, arrived and we are now checking it.

I have also agreed with Dr. Marsan to write an overview of these 600 articles. This will be published with the Bibliography, and I hope to have it available for him by the first of March. Thus, by the summer, the Bibliography and the overview should be in the hands of the participants. This will provide part of the basis for the discussion.

Please accept my thanks for your consideration, and I look forward to participating in the programs in September.

Sincerely yours,

Max Fink, M.D.  
Director
