

April 28, 1965

Mr. Robert Hayne
Smith, Kline & French Laboratories
1500 Spring Garden Street
Philadelphia, Pa. 19101

Dear Mr. Hayne:

Mr. Zwahlen was kind enough to send some of the reports from the Science Information Department. I found these most helpful, especially those relating to EEG changes in animals.

I am apologetic for having interrupted your day earlier this week to call about some references which we could not find in our files. It was helpful talking to you.

Thank you very much for your help.

Sincerely,

Max Fink, M.D.
Professor of Psychiatry
