

PP

December 16, 1963

Dr. Ronald Paul
78 St. James's Avenue
Beckenham
Kent, England

Dear Dr. Paul:

The enclosed application is a formal form in use in the State of Missouri. This application will effectively give us a copy of your curriculum vitae. If you prefer, a complete curriculum vitae may be submitted in lieu of this application form.

Positions will be open at the Institute as of July 1, 1964 and again January 1, 1965, as our research programs develop. All appointments are made on a provisional basis for a six month period. Tenure in grade is then provided through the Institute for such period of time as is agreeable both to the candidate and the Institute. Appointments are made under the rules and regulations of the Division of Mental Diseases of the State of Missouri which provide that candidates may not be dismissed without specified cause after the first year. (In general, I have asked physicians who join the staff to do so on a two year trial basis).

Sincerely yours,

Max Fink, M. D.
Director
