Dr. A. J. Frey  
Sandoz Pharmaceuticals  
Hanover, New Jersey 07936

Dear Dr. Frey:

Those of us who have come to know Rudi during the past few years, feel a great deal of sorrow at his untimely death. On many occasions, we have discussed clinical and experimental psychopharmacology. I have found these discussions most stimulating. He was a gentleman in a very fine European tradition.

My associates and I will be glad to participate in the establishment of a scholarship fund in his honor and will do so, if you will indicate the proper form.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
