Dr. Irvin A. Kraft  
Director, Child Study Clinic  
Houston State Psychiatric Institute  
1300 Moursund Avenue  
Houston 25, Texas

Dear Dr. Kraft:

I have your request for reprint of "Development of perception of simultaneous tactile stimuli in normal children", and regret that I cannot comply, since this particular article is out of print. However, I am sending, in its stead, reprint of "Disordered perception of simultaneous stimulation of face and hand: a review and theory", which I trust will be of interest to you.

Sincerely yours,

Max Fink, M.D.  
Director

MF/jb
